

SCHEDULE 381
ANTENNA INFORMATION
TELEVISION STATION WWPX-TV
MARTINSBURG, WEST VIRGINIA
CHANNEL 12 (204-210 MHz)

In regard to the licensee's antenna information, the WWPX-TV facility employs a Dielectric model TW-7B12-R antenna. This is a traveling wave slot antenna that is horizontally polarized and top-mounted on a lattice type tower structure. The antenna consists of a slotted cylinder with an inner conductor. The antenna is not broadband for channel multiplexing and therefore is only suitable for use on Channel 12.
