Engineering Statement

New Ch 20 Columbus, MO Amendment BNPD TL-20100507ACM

The within application amendment modifies the subject application as follows: Tech box Question 12: Out of channel emission mask revised to FULL SERVICE. This eliminates inappropriate interference to W21DM-D, BNPD TL-20101012AAS, Tuscaloosa, AL and allows the within application to proceed to grant. This application is not MX with any other LPTV application from the same window. Application is on ASR 1234452.

Existing Site, no new construction. NIER of the within application is less than 5% of the limit for its service. OET69 study shows application as amended conforms with applicable portions of 47CFR 74.793.

Respectfully submitted,

B. W. St. Clair
Engineering Consultant
