

KRCR, Redding, California
Facility ID 8291
Request for Special Temporary Authority

BlueStone License Holdings Inc. (“BlueStone”), licensee of Digital Television Station KRCR-TV, Redding, California (the “Station”), respectfully requests Special Temporary Authority (“STA”) to operate with reduced power pending repairs.

On March 5, 2017, the broadcast facility’s antenna transmission line was damaged due to a major ice storm. As a result, the station is currently operating at 30% of authorized power. Due to the recent inclement weather, access to the site has been limited, as there is currently 5 feet of snow on the ground at the site. Consequently, BlueStone has not been able to schedule a tower crew to inspect and begin the repairs necessary to resume full power operations. Accordingly, BlueStone hereby seeks authorization to operate at 30% of authorized power for 180 days or until it completes the repairs necessary to resume full power operation of the Station as authorized pursuant to BLCDT-20110930AST, whichever is sooner.
