B. W. St. Clair

Engineering Statement

K23KI-D FI 181463

Environmental Statement:

Antenna will be installed on an existing tower and the equipment installed in an existing building. No construction is involved.

Non-ionizing radiation at ground level head height is less than the allowable public exposure limit. No special precautions required.

The PSILP16BQM antenna was selected so as to keep the signal from reaching into Canada, thus no Canadian coordination is necessary.

Respectfully submitted,

B. W. St. Clair
Engineering Consultant
