Re: W31BX-D, Danville, Illinois  
Facility ID 70853  
Section 73.1560(d) of the Rules  
Request Special Temporary Authority for  
Reduced Power Operation

Dear Ms. Dortch:

This letter is to request to operate under a special temporary authority for W31BX-D, Danville, Illinois (Facility ID 70853). W31BX-D continues to operate at reduced power from the notification dated March 30, 2017. This power reduction is due to a transmitter equipment failure. W31BX-D operates on an assigned Channel 31 with a maximum directional ERP of 3.08 kW and a radiation center above mean sea level of 241 meters.

W31BX-D is operating at approximately 34% (1.0 kW) of licensed power. The problem RF equipment has been sent back to the manufacturer for repair. The W31BX-D technical staff is trying to make contact with the transmitter manufacturer to ascertain the status of the repair. However, this transmitter manufacturer is undergoing restructuring and this lends a degree of uncertainty to the repair process.

The FCC will be updated when the repair to the transmitter component has been performed and reinstalled.

COHEN, DIPPELL AND EVERIST, P. C.
