

Multiple Ownership and Other Authorizations

The applicant B&C Communications, LLC (“B&C”) does not have any attributable or other interest in any other broadcast station or mass media. B&C is owned by William Smith and his wife Caroline Smith, who each are managers and members holding 50% of the membership interests in B&C. William Smith also is an officer, director and shareholder of Matinee Media Corporation, which holds a construction permit for a new FM radio broadcast station KAZV(FM), Aguila, Arizona (Facility ID No. 170953). Caroline Smith is the licensee of FM radio broadcast station KAMT(FM), Channing, Texas (Facility ID No. 183356), and also is the trustee of the John R. Powley Irrevocable Trust, which is the licensee of permittee of Low Power Television (“LPTV”) stations K29GD, Amarillo, Texas (Facility ID No. 130117), W25EG-D, Columbus, Georgia (Facility ID No. 128039), and K48NY-D, Gainesville, Texas (Facility ID No. 128569).

None of these stations are in the same market as B&C’s commercial full power television station WPAN(TV), Fort Walton Beach, Florida, which is the subject of this application, therefore B&C is in compliance with the Commission’s broadcast multiple ownership rules. Since minor change applications have not required information regarding other authorizations, B&C has responded “N/A” to that question.
