

Extraordinary Circumstances

State Board of Education, State of Idaho, licensee of K46HX-D, has been notified by T-Mobile that it intends to commence operations in PEA #206 as of October 31, 2017. A copy of the notification letter is attached to this STA request. Accordingly, the current operation of K46HX-D on Channel 46 will have to cease prior to October 31, 2017. As a result, if the station is unable to begin operations on another channel by that date, it will be forced to go off the air. The licensee is concurrently herewith filing an application for minor modification of the license for the station, together with a request for waiver of the current filing freeze for such displacement applications. The licensee is seeking an STA to be able to continue providing noncommercial educational television service to the public until such time as the application can be accepted, processed, and granted.
