Hispanavision Television (“HTV”) is the licensee of digital Low Power Television station KWYT, Channel 39, Yakima, WA, Facility ID 57522. KWYT has received a 120 day notice from a 600 MHz licensee that the wireless licensee intends to commence operations and KWYT is predicted to cause interference to the wireless operations. The 120 day notice states that wireless operations will commence by October 31, 2017, in advance of the Special Displacement Window. Therefore, Hispanavision sought a waiver of the Federal Communications (“FCC’s”) Displacement Freeze (see Public Notice, DA 14-808, rel. June 11, 2014), in conjunction with the displacement application it filed for KWYT (see LMS File NO. 0000004728) (the “Displacement Application”).

Pursuant to the procedures set forth in the FCC’s Public Notice, DA 17-442, released May 12, 2017, Hispanavision hereby seeks special temporary authority to operate on Channel 36 (as detailed in the Displacement Application) during the pendency of FCC processing of the Displacement Application. Grant of this STA request will clearly serve the public interest by allowing this facility to provide continuous service to the public during the ongoing incentive auction repacking process.
