In Re: LMS-0000027841  
WKHU-CD  
Facility Id: 68401  
Kittanning, PA.

Dear Licensee:

This is in reference to the above-captioned application for a construction permit for a television station on channel 32 at Kittanning, PA.

We have completed our technical review of your application and conclude that it cannot be granted because it would have an adverse impact on the implementation of the post-incentive auction repack. *See FCC Public Notice, Procedures for the Post-Incentive Auction Broadcast Transition, released January 27, 2017.*

Specifically, your proposal violates the following:

Exceeds the baseline noise-limited contour of your repacked facility by more than 1% in at least one direction.

Accordingly, you must within **15 days** of the date of this letter, amend your application so that it will meet with the criteria specified in the *Procedures for the Post-Incentive Auction Broadcast Transition* Public Notice. It is recommended that at this point in time you conduct a complete technical analysis of your proposal in an effort to correct the deficiency outlined in this letter as well as any other technical problems that might exist. You are cautioned that your failure to comply with the requirements of this letter within the time specified herein may result in the dismissal of your application pursuant to Section 73.3568(a) of the Commission's Rules.

Sincerely,

A handwritten signature in dark ink, appearing to read "Hossein Hashemzadeh", with a long horizontal flourish extending to the right.

Hossein Hashemzadeh
