

Request for Waiver of the Displacement Freeze

The Applicant hereby requests a waiver of the Commission's Displacement Freeze. See Displacement Freeze Public Notice, 29 FCC Rcd 6063 (MB 2014). The Station, which currently operates on Channel 48, is being displaced as a result of the Incentive Auction and repacking process.

The licensee has received a 120-day notice from T-Mobile that the Station is likely to cause interference in areas where T-Mobile intends to commence operations or testing on October 31, 2017 (specifically PEA #80). A copy of the notice is attached.

Because the Station will be displaced prior to the opening of the Special Displacement Window, this waiver request is being filed pursuant to the June 14, 2017 FCC Public Notice, DA 17-584, *Incentive Auction Task Force and Media Bureau Set Forth Tools Available to LPTV/Translator Stations Displaced Prior to the Special Displacement Window*.

The station did have displacement application BDISDTL-20111206BCT granted for Channel 33, however, KMAS-LD in Denver was also granted on channel 33 and projected to cause interference to BDISDTL-20111206BCT, therefore, please dismiss BDISDTL-20111206BCT if this is granted.
