Mr. Doug Crall  
Florida State University  
1600 Red Barber Plaza  
Tallahassee, FL 32310-1032

Dear Mr. Crall:

This letter is intended to confirm that GatesAir has the capacity to deliver transmission equipment for station WFSG earlier than it assigned repack phase. This will not prevent GatesAir from fulfilling other orders or other customer commitments required for other early phase stations.

Should you have any question, please feel free to contact us for any further clarifications.

Best Regards,

A handwritten signature in blue ink that reads "Raymond A. Miklius".

Re – WFGS Repack Transition

September 18, 2017

Mr. Crall

It is Dielectric's understanding that WFSG is requesting an FCC authorization to transition from Channel 38 to repacked Channel 28, earlier than its assigned phase-1.

This letter is to confirm that efforts by Dielectric to complete equipment and installation for WFSG's earlier transition will not impair Dielectric's ability to construct and supply equipment for other early phase stations to complete their transition during their assigned phases.

Kindest regards,

Christine Zuba

Re – WFSG Repack Transit

September 18, 2017

Mr. Crall,

It is TCI's understanding that WFSG is requesting an FCC authorization to transition from Channel 38 to repacked Channel 28, earlier than its assigned phase-1.

This letter is to confirm that efforts by TCI to complete equipment and installation for WFSG's earlier transition will not impair TCI's ability to construct and supply equipment for other early phase stations to complete their transition during their assigned phases.

Thank You,
