

FCC Form 2100, Schedule A
KFXL-TV
Explanatory Exhibit

Despite best efforts, the applicant has been unable to substantiate the Support Structure Height in the instant application, which indicates 0.1 meters. Please accept this exhibit as notification to the Commission that the ASR Registration data that pre-filled at “0.1” is likely incorrect and could potentially require substantiation by the tower owner. The applicant is actively working to confirm the data and will update the Commission accordingly.
