Facility Id No.: 190113

Dear Applicant:

On February 13, 2018, the licensee as addressed above was sent a deficiency letter outlining the following issues:

Specifically, the protected contour for the proposed digital modifications LMS-0000036415 does not overlap with the protected contour of the existing analog license application file number BLTT-20051206ADA.

In addition the proposed facility relocation distance is 52.6 miles which exceeds our 30 mile rule.

You were given 30 days from the date of that letter to electronically file an amendment to resolve the above issue; as of March 26, 2018, our records show that no amendment has been filed to resolve the deficiency; therefore, the LMS proposal 0000036415 IS HEREBY DISMISSED.

Sincerely
