

TECHNICAL EXHIBIT
2018 DISPLACEMENT/FILING WINDOW FOR LPTV
AND TV TRANSLATOR STATIONS

FACILITY: K49AS-D, GI 70994
SANTA CLARA, UT
KUTV LICENSEE, LLC
Existing FCC file number BLDTT-20100204ADE

Pursuant to the LPTV/Translator displacement/filing window of 2018 arising from the incentive auction 600 MHz TV band repack, the within application is filed to change the facility as follows: change output channel 49 to channel 29, STRINGENT mask, 0.15 kW ERP. Antenna make and model is SCA PR-450(2) to be located on existing unregistered tower at 12.0 m AGL, specified rotation 0°. Tower has been subjected to TOWAIR study and registration not required. Channel selection is based on agreements among participating translator associations/management groups in the area.

NIER is less than 5% of the limit for this service; no new tower construction is planned. Using the specified equipment, pattern and ERP, the application is in compliance with all pertinent portions of §74.793 with respect to all existing part 73 and part 74 licenses, permits and applications known as of the time of filing; however, as a station in the LPTV or TX service which is displaced into the core or otherwise required to modify its facilities in accordance with the presence of an incoming repacked full service station assigned to its previous channel, the within applicant agrees, if necessary, to not operate on the channel or with the service proposed in the within application until any potentially mutually interfering repacked full service station or stations have left their channels pursuant to the relevant phase assignment(s).
