Displacement Application Narrative

Call Sign: WCZA-LD

Facility ID: 184280

Applicant respectfully submits the attached displacement application pursuant to the terms set forth in the *Special Displacement Window Public Notice*.[1] Applicant has used *TVStudy* to identify Channel 24 as an available channel and verifies that the displacement facility proposed will not create harmful interference.

Applicant is eligible to participate in the Special Displacement Window. WCZA-LD qualifies as both "operating" and "displaced" as defined under the FCC's eligibility criteria.[2] Applicant's displacement proposal does not move the station's facilities an impermissible distance.[3]

The interference analysis completed utilizing *TVStudy,* indicates WCZA-LD, Facility ID: 184280's interference amount is less than the 0.5 percent interference allowance for predicted loss of service to DTV, authorized Class A or digital Class A stations.[4] The *TVStudy* analysis shows that WCZA-LD will not cause unacceptable interference to the predicted service of (1) all other primary users in the repacked TV Band or in adjacent bands (including land mobile operations); (2) licenses and valid construction permits for LPTV/translator stations; (3) licenses and valid construction permits for full power and Class A stations that were not reassigned; (4) the post-auction channels of reassigned full power and Class A stations as reflected in the *Closing and Reassignment Public Notice*; and (5) the alternate channels and expanded facilities proposed during the two filing windows by reassigned full power and Class A stations. [5]
