Engineering Statement

K21CE- D FI 4404

Displacement application due to Incentive Auction 600 MHz TV Band Repack.

Environmental Statement:

Antenna will be installed on an existing tower and the equipment installed in an existing building. No construction is involved. Restricted site access.

Non-ionizing radiation at ground level head height is less than the allowable public exposure limit. No special precautions required.

K21CE-D requests displacement to Ch 34 as part of the cooperative agreement with the Utah Master Plan. K45MZ, licensed to Rich County, is seeking Ch 21 in the nearby community of Laketown, UT as part of the UT Master Plan. Bear Lake County TV District is in agreement with the change and seeks to continue serving the public on Ch 34 as part of the regional repacking plan. .

Respectfully submitted,

B. W. St. Clair
Engineering Consultant
April 20, 2018

Hossein,

Because of the repack and lack of channels we need to move K42HT-D to channel 14, K43OP-D to 16 and K45MZ-D to 21 at Laketown Hill. BEAR LAKE COUNTY T.V. DISTRICT has agreed to move their K14NT-D to 30, K16HQ-D to 32 and K21CE-D to 34.

This makes it possible to continue to serve the folks with both sites as well as provide the necessary inputs from Laketown Hill to Bear Lake County.

This change is shown on the Utah Master Plan.

Thanks again for all you do,

Ron Titcomb
