### EXTRAORDINARY CIRCUMSTANCES JUSTIFYING EXTENSION OF STA

Central Wyoming College, licensee of K49LM-D, Sundance, Wyoming, herein seeks extension of its special temporary authority to operate the facilities proposed in its displacement application. Extension of this STA would advance the public interest, as set forth herein.

Central Wyoming College was notified that its Sundance facility would need to change channels due to purchase of the frequency by T-Mobile. Accordingly, pending grant of the displacement application, extension of the station's STA is necessary in order to ensure that the station is able to continue to serve its audience. Any deprivation of such service is particularly significant in remote areas, such as the community of license in this instance, in which television service is sparse at best. Accordingly, a grant of the requested STA extension would serve the public interest and is warranted.
