

REQUEST FOR WAIVER FOR DISPLACEMENT APPLICATION
W38ET-D
EASTLAKE, OH

ideastream is proposing that W38ET-D displace to the pre-auction channel for WQHS-DT (Ch. 34) which is scheduled to transition to its post-auction channel (Ch. 36) in Phase 4 (construction deadline of August 2, 2019). ideastream respectfully requests a waiver of the contingent application rule (Part 73.3517). Displacing W38ET-D to Ch. 34 is necessary as no other available channel could be identified for W38ET-D which satisfies the FCC interference requirements to full-service, Class A and non-displaced LPTV/translator stations. ideastream agrees to the condition that it will not begin operating W38ET-D on Ch. 34 prior to WQHS-DT discontinuing its operation on Ch. 34.
