

Amendment Narrative

Since filing the initial post transition application having FCC File No.: 0000028553 and its subsequent amendment, San Bernardino Community College District ("SBCCD") has been actively working with local, state, and federal officials to design and approve a new tower immediately adjacent to the licensed tower and has obtained an FCC Antenna Structure Registration Number ("ASRN"). The new tower design required a precise survey to procure accurate site coordinates and ground elevation. The overall structure and antenna center of radiation have been increased to accommodate a studio to transmitter link. The ERP has been reduced to meet the Section 73.622(f)(5) largest station in the market analysis. All technical parameters and exhibits have been updated to match the new ASRN.
