

Purpose of Amendment

Shortly after W44CR-D filed for a channel displacement application¹ for 32, W38ET-D filed an application² for the same channel and is mutually exclusive. Due to the proximity of the two stations they cannot co-exist on the same channel. The instant amendment application modifies W44CR-D from channel 32 to channel 34 and modifies the antenna from omni-directional to directional. No other changes are proposed.
