Request for Waiver

The attached TV Study report excludes WMYV-TV in Greensboro, NC on its presently licensed channel 33 (BLCDT-20020430ABD). WMYV-TV is scheduled to move to channel 28 in repack phase 5 which concludes 09/06/2019, making channel 33 available in that general area.

Ventana Television Inc. requests a waiver of the Contingent Application Rule 47CFR3517 which will allow W46EU-D to apply for and eventually operate on a channel it normally would be unable to apply for.

Ventana fully acknowledges that transmission on channel 33 cannot begin until WMYV-TV completes its move to channel 28. On that basis Ventana requests that interference to WMYV-TV on its licensed channel 33 be omitted from consideration in processing this proposal.

Also excluded from the TV Study run is a W18EH-D displacement application, also filed during the special filing window.
