## Request for Waiver

The attached TV Study report excludes WTTA-TV in St. Petersburg, FL on its presently licensed channel 32 (BLCDDT-20101110AAI). WTTA-TV surrendered channel 32 in the spectrum auction but is in the final stages of its transition to channel sharing with WFLA-TV.

Ventana Television Inc. requests a waiver of the Contingent Application Rule 47CFR3517 which will allow W40CU-D to apply for and eventually operate on channel 32 which it normally would be unable to apply for at this time.

Ventana fully acknowledges that transmission on channel 32 cannot begin until WTTA-TV ceases its operation on channel 32. WTTA-TV engineering has assured Ventana that a hard fixed date of June 25, 2018 has been established for the end of transmission on channel 32.

On that basis Ventana requests that interference to WTTA-TV on its licensed channel 32 be omitted from consideration in processing this proposal.
