

K36LY-D
Displacement Exhibit
May 31, 2018

K36LY-D meets the requirements for displacement:

- 1) It will cause interference to KHSL-TV Chico on co-channel 36.
- 2) It has been licensed since prior to April 13, 2017

Request to move 36 miles and seek a channel share with KBIT-LD:

No other channel could be found to move to other than channel 15 that KBIT-LD already applied for. Therefore, One Ministries, Inc. (OMI) requests permission to apply to move 36 miles to the Sutter Buttes. One Ministries, Inc. proposes to channel share with KBIT-LD on channel 15 and to share a transmitter and bandwidth and expenses equally. There is contour overlap between the proposal on channel 15 and K36LY-D's current service contour.

This proposal does not cause any interference to any other station.

Please see attached TV Study.
