TV Station K45IM-D as Channel 29 • Monroe, Louisiana
Environmental Exhibit

June 1, 2018

1. An environmental assessment is not required granting this request would not be considered a major environmental action.

2. Maximum calculated power density at 2 meters above ground was found to be less than 5% of the applicable public exposure limit (0.36 mW/cm2 at the Channel 29 center frequency of 538 MHz).

3. This proposed operation is excluded under Section 1.1307(b)(3) of the FCC rules from having to consider the contributions of any other stations at the site.

4. None of the other factors specified in Section 1.1307 of the Rules are believed to apply
