

**Reduced Power STA Application
KVMM-CD, Santa Barbara, CA
June 2018**

KVMM LLC, licensee of station KVMM-CD, Santa Barbara, CA (Facility ID No. 18741) (the “Station”), hereby requests Special Temporary Authority to operate KVMM-CD at reduced power for a period of up to 90 days. The Station commenced operations on its post-transition channel 28 in May 2018. Shortly after commencing operations on channel 28, the Station received complaints of interference from a land mobile licensee at a nearby tower site. The Station has operated at 10% to 25% of its authorized power since May 30, 2018 while investigating the allegations of interference and assessing potential solutions to the interference. KVMM LLC notified the Commission of the reduced power operation on June 6, 2018 (File No. 0000055022), but now expects that the interference investigation and assessment will not be completed within 30 days. Therefore, KVMM LLC seeks Special Temporary Authority to operate the Station at such reduced power until the interference issue is resolved for a period of up to 90 days. The other parameters and technical details of the Station’s operation are as set forth in the Station’s license for channel 28 (File No. 0000054369).
