Channel 6
Environmental Statement
July 29, 2018

The applicant proposes to operate at 3 kW horizontally polarized at 30 meters above ground. This proposal is well within the Commission's guidelines for both controlled and uncontrolled radiation exposure. Nevertheless, the applicant will insure that placards warning of radiation hazard are posted in and around the site at all times and that station staff are trained how to turn off the transmitter in the event that anyone needs to climb the tower.
