

**KGWC-LD, Casper, WY (FID 185416)**

**Request for STA**

Gray Television Licensee, LLC, licensee of KGWC-LD, Casper, Wyoming (FID 185416), requests special temporary authority to operate KGWC using the technical parameters specified in this filing. KGWC was displaced by T-Mobile and has been silent since August 14, 2017.

KGWC's displacement application was granted on June 12, 2018. Upon receipt of this grant, Gray immediately began construction of this facility. KGWC is working diligently to resume operations and planned to have completed its displacement facility by the one-year deadline to resume operations. However, the last piece of equipment needed—transmission line—has not been received. The shipping company advises that it will arrive "any day."

Out of an abundance of caution, KGWC requests permission to build and operate the facility specified in this application. This will allow KGWC to resume operations prior to being off the air one year. Once the transmission line arrives, KGWC anticipates immediately completing construction of its displacement facility.
