

K14KO SPECIAL TEMPORARY AUTHORITY TO REMAIN SILENT

Eastern New Mexico University

Facility ID 32328 ortales, NM

Eastern New Mexico University (ENMU) is requesting authorization to remain silent due to the equipment failure of an obsolete Larcan MX1000 analog transmitter for which parts and technical support is no longer available.

It is the intension of the licensee to use the Special Temporary Authority period to flash cut the existing analog television authorization to a digital television construction permit, obtain, install and operate a facility using the recently approved ATSC 3.0 digital modulation standard.

ENMU also acknowledges the existing application freeze due to the ongoing television spectrum repacking process.

Approval of this request will provide ENMU time to retain the authorized analog television spectrum while advancing the state of the art digital broadcasting. ENMU respectfully requests Special Temporary Authority to remain silent.
