

K51LK-D  
STA Request to Temporarily  
Channel Share with KRDT-CD  
9/5/2018

K51LK-D had been given a letter by T-mobile to cease operation on channel 51 by the end of 2017. A silent STA had been filed. Also, a displacement application had been filed that is still pending. DA 17-584 allows stations that have received a 120 day notice from a 600 MHz wireless licensee to operate on a temporary channel share.

In order to keep K51LK-D from being silent too long while waiting on its displacement application to be granted and then waiting on equipment to be delivered, the applicant seeks the ability to temporarily channel share with KRDT-CD, which is co-owned by the applicant.
