Re: Low Power Television Application
Displacement Call Sign K27NP-D
Facility Id. 128242
File No. 0000053217

We understand Duchesne County has applied for a displacement channel K28PH-D and that you predict interference to our K27NP-D. We agree to accept the changes made in the Utah Master Plan and look forward to you granting the application. If however there is interference we will work with Duchesne County to resolve it.

Thank You,

Richard Doutre Jones
VP General Manager
