Request for Extension of Silent STA

Rapid Broadcasting Company (“Rapid”) requests an extension of the Silent Special Temporary Authority (“STA”) granted to K22AD (the “Station”) on May 1, 2018. The current STA expires November 1, 2018. The Station went silent for transmitter repairs and, although those transmitter repairs have been resolved, Rapid now has to change the satellite from which the Station gets its feed. That requires a new satellite receiver. Rapid has been attempting to get a quote on a particular receiver for several weeks now, but the manufacturer has been unresponsive so far.

Rapid is taking all steps possible to resume normal operation of the Station in an expeditious and timely fashion. Rapid needs an extension of the current STA until the new satellite receiver can be obtained and installed. Such an extension would serve the public interest.
