Re: Low Power Television Application
Displacement Call Sign K14LW-D
Facility ID 189761
File No. 0000053434

We understand Duchesne County has applied for a displacement channel K15LW-D and that you predict interference to our K14LW-D. We agree to accept the changes made in the Utah Master Plan and look forward to you granting the application. If, however, there is interference, we will work with Duchesne County to resolve it.

Thank you,

Richard Dautre' Jones
VP, General Manager
