TO WHOM IT MAY CONCERN

Re: **1,432-ft Guyed Starmount Tower  
Madison, Wisconsin  
Registration Number:1033919**

Regarding the repack of the Community Tower in Madison Wisconsin, registration number 1033919, We recommend moving WISC-TV from phase 9 of the repack to Phase 6 for the following reasons:

First, there are other broadcasters on the tower replacing equipment in phase 6 for business reasons, and due to the required repack. To have one mobilization would conserve tower crew availability, reduce risk to the crew and the tower during what is a crucial time in the industry's repack efforts, and would not negatively impact transition efforts elsewhere.

Second, another mobilization would add significant costs, estimated to be \$180,000.000.

For these reasons, we again recommend this phase change.

Thank you for your consideration

Sincerely,
