

## **Request For Extension of Special Temporary Authority**

Graham Media Group, Florida, Inc., licensee of WCWJ(TV), Facility ID No. 29712 (the “Station”) hereby respectfully requests a six-month extension of its currently-authorized special temporary authority (“STA”) to operate on its pre-transition Channel 34 at an interim facility on an alternate antenna site located less than one-half mile from its currently licensed facility.

As noted in its original request for STA (File No. 0000058428) granted July 31, 2018 and set to expire January 28, 2019, it was determined that WCWJ’s currently licensed tower could not support the Station’s proposed post-transition Channel 20 antenna load and that an interim facility and site were required. Since commonly-owned Jacksonville facility WJXT(TV) faced a similar challenge at the time, a plan was developed so that each station would co-locate at the interim site while a new post-transition main antenna and facility could be installed. While WJXT is no longer using the interim site, circumstances dictate that WCWJ continue to operate at the alternate location. Grant of this STA extension request is in the public interest because it allows the Station to continue to provide service to the public in the Jacksonville market while it otherwise prepares to meet its Phase 7 transition to Channel 20 by the January 7, 2020 deadline.
