

Silent Notice and STA Request

There is pending an application for assignment of the station. The station has been taken silent to preserve resources during the pendency of the application. The assignee intends to resume operations after the closing.

The station was taken off the air on January 5, 2019 and has been silent since that date. The licensee inadvertently did not notify the FCC by February 5, 2019. The online form only permits insertion of a silent date within the last 30-days. Accordingly, the applicant selected February 2, 2019 in order to submit the form but the correct date for the silence is January 5, 2019.
