

CONSTRUCTION PERMIT CERTIFICATION RESPONSE

The station's proposed change will result in its post-incentive auction facility slightly expanding its noise-limited service contour in several azimuthal directions beyond that established by the post-incentive auction channel reassignment public notice; however, the expansion is below 1% (0.8%) due to the antenna change and TVStudy demonstrates that the facility will not cause impermissible interference to any stations.

CERTIFICATION

This technical statement was prepared by William T. Godfrey, Jr., Engineering Associate with the firm Kessler and Gehman Associates, Inc. having offices in Gainesville, Florida, and has been working with the firm in the field of radio and television broadcast consulting
