

### **NARRATIVE REGARDING SILENT STA**

As a consequence of the FCC's station repack, WFBI-LD, South East Memphis, Tennessee (Facility ID 23844) was displaced by full power station WPXX-TV, Memphis, Tennessee (Facility ID 21726). In light of notification by WPXX-TV of its intention to commence broadcasting on Channel 33, WFBI-LD was taken silent. A Silent STA was granted by the FCC on October 24, 2018 (see File Number: 0000063074). The subject application seeks extension of that STA.

WFBI-LD had its displacement application granted whereby it will move to Channel 34 (from its previous Channel 33). Upon successful construction of the new Channel 34 facilities (and the filing of the requisite license application), it is expected that no extensions of the subject Silent STA for WFBI-LD will be required.
