Re: REASON FOR SILENT EXTENSION

WNXY-LD Channel 10, New York, NY
Facility ID 29236
New York Spectrum Holding Company LLC
FRN 0021234943

NYBB is still negotiating a long-term access arrangement with the manager of its tower site.

The station operated on Channel 43 from the same site, but the Channel 10 is larger, requiring a new agreement with the site manager. Because of the impending expiration of the Channel 10 construction permit, the site manager allowed installation of the antenna and operation for a short period, but the manager will not allow continued operation without a long-term revised lease.

Any question, please contact the undersigned.

Sincerely,

Michael Do
