

### **Local Public File Certification**

To the licensee's knowledge, WACA(AM) had placed in its physical public inspection file all documents required to be placed in the file by 47 C.F.R. 73.3526. While the licensee cannot be certain in all instances when the documents may have first been placed in the file, it believes that it otherwise has complied with Commission requirements as to timing in all material respects, and it is not aware of any other untimely submissions.

Due to an administrative oversight, licensee failed to timely upload all required files to the station's online public file. Immediately upon discovering the oversight in connection with preparation of WACA's renewal application, the licensee began work to upload the missing documents to the station's online public file. Since discovering the issue, the problem has been corrected and licensee will timely file all subsequent documents to the Station's online public file. Licensee believes that as of the filing of the instant application its online public file is now complete.

In making this certification, the licensee has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
