Environmental Statement
KURK-LD (RF Channel 3)
June 13, 2019

The applicant proposes to operate at 3 kW circularly polarized 235.7 meters above ground. This proposal is well within the FCC's guidelines for radiation exposure. Nevertheless, the applicant will ensure that placards warning of radiation hazard are posted in and around the site at all times and that station staff are trained how to cease operation in the event that any tower maintenance is performed.
