

Gray Television Licensee, LLC
WOIO(DT) Digital Replacement Translator
Facility ID 39746

Gray Television Licensee, LLC, licensee of WOIO(DT), requests authority to operate its digital replacement translator using the facilities specified in its pending minor modification application (File No. 0000054106). Gray Television was granted a construction permit for the WOIO(DT) digital replacement translator on April 17, 2019 (File No. 0000054106). Gray filed the minor modification application to specify a different directional pattern and increase in ERP. No change in site location was proposed. Because of its proximity to Canada, this modification requires coordination with Canada.

WOIO(DT)'s digital replacement translator will be displaced by the operations of WEAO(TV) during Phase 4, which concludes August 2, 2019. Therefore, absent grant of the instant STA, WOIO(DT)'s digital replacement translator will be required to cease operations once WEAO transitions to their post-repack channel.

Gray Television respectfully requests authority to operate the facility specified in the minor modification application pursuant to special temporary authority.
