Vice President

Subject: Earlier Transition Impact on Rohde & Schwarz

Project: WCPX

Dear Mr. Shea Clark,

Rohde & Schwarz USA is aware that WCPX is in the process of requesting a waiver and/or Special Temporary Authorization to perform the transition of WCPX to an earlier Phase.

This letter is to confirm that the earlier transition of WCPX will not impair the ability of Rohde & Schwarz to provide the required transmitter and resources to other phase stations to complete their own transitions.

You and your staff at WCPX are permitted to share this letter with the FCC as required.

Sincerely,

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke extending to the right.

Erik Balladares  
Vice President – Broadcast & Media
