

**Isothermal Community College
Online Public Inspection File
Exhibit**

The FCC's online public inspection file website was not accessible when the fourth quarter 2018 issues programs report was due by January 10, 2019 because of the federal government shutdown. Following the federal government reopening, on Monday, January 28, 2019, station staff for WNCW and WSIF uploaded the fourth quarter 2018 issues programs list to each station's online public inspection file.
