

COMPLIANCE WITH SPECIAL OPERATING CONDITION #3

Special Operating Condition #3/Spurious Emissions: The authorized W231DC antenna (ERI model SHPX-4BC-HW-DP) is also authorized as an auxiliary antenna for FM stations WARO/Ch. 233C0, WINK-FM/Ch. 245C, WTLQ-FM/Ch. 249C3, WXNX/Ch. 229C2 and WFSX-FM/Ch. 223C2. There will only be one station at a time using the antenna. Furthermore, W231DC will only use the antenna when it is not being used by the auxiliary stations. Therefore, it is not believed that spurious emission measurements are necessary.
