Re: Request for Extension of
Construction Permit
WSJV, Elkhart, IN
Facility ID No. 74007
LMS File No. 0000086685

Dear Licensee,

On October 16, 2019, WSJV License, LLC (WLL), the licensee of Station WSJV, Elkhart, Indiana (WSJV or Station), filed the above captioned application seeking an extension of the Station's construction permit expiration date and waiver of the 90-day construction permit extension filing deadline. For the reasons below, we grant WLL's requests and extend WSJV's construction permit expiration date 180 days to April 15, 2020.

Background. Pursuant to Section 73.3700(b)(5) of the Commission's rules, a station may request a single extension of its construction permit deadline of up to 180 days to complete construction of its post-auction facility.¹ Grant of an extension of the construction permit deadline does not alter the deadline by which a station must cease operating on its pre-auction channel. A station anticipating the need for an extension must submit an extension application using FCC Form 2100, Schedule 337, not less than 90 days before the assigned construction permit deadline.² For Phase 6 stations, such application was due by July 22, 2019. The application must demonstrate that the station is unable to complete construction on time due to circumstances that were either unforeseeable or beyond the station's control.³ In addition, a waiver of the application filing deadline is appropriate where the particular facts would make strict compliance inconsistent with the public interest and deviation from the general rule would relieve hardship, promote equity, or produce a more effective implementation of overall policy on an individual basis.⁴

¹ See 47 CFR § 73.3700(b)(5). All subsequent requests for additional time to construct are subject to the Commission's tolling provisions, 47 CFR § 73.3598(b).

² 47 CFR § 73.3700(b)(5)(iv).

³ The *Incentive Auction R&O* provides examples of six circumstances that might justify an 180-day extension of a station's post-auction construction permit: (1) weather related delays; (2) delays in construction due to the unavailability of equipment or a tower crew; (3) tower lease disputes; (4) unusual technical challenges; or (5) delays caused by the need to obtain government approvals, such as land use or zoning approvals, or to observe competitive bidding requirements prior to purchasing equipment or services; and (6) financial hardship with sufficient supporting evidence. See *Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions*, GN Docket No. 12-268 et. al., Report and Order, 29 FCC Rcd 6567,6804-05, paras. 581-2 (2014) (*Incentive Auction R&O*); 47 CFR § 73.3700(b)(5)(ii) and (iii).

⁴ See *Northeast Cellular Telephone Co. v. FCC*, 897 F.2d 1164, 1166 (D.C. Cir. 1990) and *WAIT Radio v. FCC*, 418 F.2d 1153, 1159 (D.C. Cir. 1969), *cert. denied*, 409 U.S. 1072 (1972); 47 CFR § 1.3 (waiver for good cause shown).

WSJV was repacked from channel 28 to channel 30 and assigned to transition Phase 6, which has a phase completion date of October 18, 2019. All repacked stations for Phase 6 were issued a construction permit with an expiration date of October 18, 2019. The Station pledges to cease operation on its pre-auction channel by the phase completion date and operate an auxiliary facility on its post-auction channel while it completes construction of its permanent post-auction facilities.⁵

WLL states that it recently changed its transition plan in order to co-locate and share equipment with another repacked station. The Station's application for construction permit for post-auction channel facilities was only just filed on October 14, 2019. Therefore, WLL will need additional time for the application to be processed and granted and for construction to be completed. WLL requests a 180-day extension of time. WLL also requests a waiver of the 90-day construction permit extension filing deadline because it did not know for certain it would require an extension at the time the deadline passed.

Discussion. Upon review of the facts and circumstances presented, we find WLL's request to extend the construction permit deadline to construct WSJV's post-auction facility meets the requirements for a construction permit extension. WLL has demonstrated that an extension is needed while it awaits processing of its application for its post-auction channel facilities. We also find that grant of this extension request is not likely to negatively impact the overall transition schedule. WSJV will cease operations on its pre-auction channel by the Phase 6 completion date and will operate an auxiliary facility on its post-auction channel. To the extent some viewers are unable to receive WSJV's signal while it operates its interim facility, we believe that WLL has every incentive to ensure viewers are fully informed about the Station's transition plan. Finally, we find that waiver of the 90-day construction permit extension filing deadline is in the public interest and consistent with the Commission's general waiver standard because WLL was unaware at the time an extension request was due that an extension of WSJV's construction permit would be needed.⁶

We remind WLL that pursuant to the Spectrum Act, the Station is eligible for reimbursement from the TV Broadcast Relocation Fund (Fund) of costs "reasonably incurred . . . in order for the licensee to relocate its television service from one channel to the other."⁷ Additional expenses incurred, for instance, as a result of the grant of changes in the Station's transition plan that are not related to the post-incentive auction channel change, may not be reimbursable from the Fund.

The above facts considered, WSJV License, LLC's application for extension of construction permit expiration date **IS GRANTED**. The construction permit (LMS File No. 0000027461) for WSJV, Elkhart, Indiana, **IS EXTENDED 180 days to April 15, 2020**. Grant of this extension does not permit the Station to recommence operation on its pre-auction channel after ceasing operation or after October

⁵ See LMS File No. 0000086451.

⁶ See *supra* note 4.

⁷ 47 U.S.C. § 1452(b)(4)(A)(i). See also *Incentive Auction R&O*, 29 FCC Rcd at 6821, para. 622 ("The appropriate scope of 'costs reasonably incurred' necessarily will have to be decided on a case-by-case basis.").

18, 2019, whichever occurs first. We also remind WLL that any subsequent requests for extension of its construction permit deadline will be subject to the Commission's tolling provisions.⁸

Sincerely,

A handwritten signature in black ink, appearing to read 'B. A. Kreisman', with a long horizontal flourish extending to the right.
