

Community Television, Inc.  
Request for Silent STA  
WHDS-LD, Savannah, GA  
Fac. Id. 167565

Silent Justification

WHDS was displaced and has been operating at reduced power on its displacement channel 20 using a leased transmitter pursuant to STA 0000072278. The entity that owned the transmitter had to retrieve it for use with another operation. Community has secured a substitute leased transmitter but must procure and complete certain software installations before the transmitter becomes operational. When it does become operational, WHDS will resume operations under the reduced power channel 20 STA 0000072278. Until then, Community requests special temporary authority to remain silent while it completes installation of a new leased channel 20 transmitter.
