# *Summary of LPFM License Modification Filing*

---

**Call letters:** WELT-LP(FM) (License Modification)  
**City of License:** Fort Wayne, IN  
**Channel:** CH239L1 (95.7 MHz)  
**File No:** BLL-20160219ABW  
**Facility ID:** 193114  
**Applicant:** Allen County Public Library

## **Explanation of License Modification Filing**

This Schedule 319 License Modification is being filed pursuant to 47 C.F.R. Section 73.875(c)(1) to notify the replacement of the present Jampro Model JLCP-1 (1-bay; fully spaced) antenna with a Jampro Model JLCP-2(RFR0.5) (2-bay; halfwave spaced) antenna and new calculated Transmitter Power Output (TPO) value of 160 watts.

The applicant would like to note the new 2-bay antenna remains mounted at 34 meters AGL (272 meters AMSL), or identical in height to WELT-LP(FM) license BLL-20160219ABW. Therefore, the facility as constructed remains in compliance with the "+2 / -4 meter mounting provisions" as allowed under 47 C.F.R. Section 73.875(b)(3).

Out of an overabundance of caution, an updated RF Compliance Study has also been provided. Concerning compliance with the NEPA, Nationwide Programmatic Agreement and NHPA Section 106 for tower co location, compliance with the agreement is not required where no new tower construction is being proposed and the tower is not being substantially altered. Specifically, compliance is not necessary where only an antenna is being replaced on an existing structure, as here. However, should the Commission determine compliance is necessary, upon notification the applicant will file FCC Form 621.

No other License Modifications are requested at this time.
