(“Nexstar”), slated to transition to its post-transition channel 14 in Phase 7 (by/before January 17, 2020), must discontinue operations in order to remove the existing antenna and install the Station’s post-transition channel antenna. Consequently, WNLO-CD, required to vacate its pre-auction channel 45, will go dark on December 6, 2019. WNLO-CD will resume normal operations by or before the Phase 7 transition deadline of January 17, 2020. The Station ran the required viewer notice for 30 days prior to going dark on December 6, 2019. The notice informed the viewing public that the Station would go dark on December 6, 2019 and resume normal operations, requiring a rescan of channels, on its new channel on January 17, 2020. WNLO-CD is a FOX affiliate. The FOX programming will remain available to viewers in Norfolk via co-owned WVBT(TV), Virginia Beach Virginia, FAC ID 65387. Accordingly, Nexstar submits this discontinuance notice and seeks special temporary authority to remain silent.
