

Online Public Inspection File Certification

To the licensee's knowledge, except as set forth herein, Cox Radio, Inc. ("CRI-Orlando") has timely placed in its physical and online public inspection files all documents required to be placed in the file by 47 C.F.R. 73.3526 and otherwise has complied with the Commission's public file requirements in all material respects.

Due to an administrative oversight, CRI-Orlando failed to timely upload certain required files to the station's online public file. Specifically, the annual EEO public file reports for 2012 and 2016 were not timely uploaded to the station's online public file. In addition, the 2016 2nd Quarter Issues/Program Report (due 7/11/16) and the 2016 3rd Quarter Issues/Programs Report (due 10/11/16) were not uploaded to the station's online public file until 12/22/16. The 2017 3rd Quarter Issues/Program Report (due 10/10/17), was not uploaded until 10/12/17. The licensee has since uploaded materials to its online public file in a timely manner.

In making this certification, the license has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to the licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
