Mr. Shuldier,

In response to your notice dated July 24, 2019 concerning regulatory fees, Southern Communications Corporation asserts in July, 2017 it entered in to payment arrangements with several collection entities in addition to the United States Treasury to resolve the past due amounts. To date, the balances due are:

Performant Recovery	\$954.65 (beginning balance \$11,194.75)
Con Serve	\$0.04 (beginning balance \$9,367.49)
Pioneer Credit	\$0 (beginning balance \$11,645.97)
US Treasury	\$4,777.65 (beginning balance \$13,227.32)

While we have made consistent progress on these balances, Southern Communications acknowledges additional fees are due at this time. We shall continue to make timely payments per our commitments and will make every effort to emerge from 'red light' status as soon as possible. Additionally, we are in a position to pay upcoming regulatory fees (due September) on time and in full.

Southern Communications Corporation respectfully requests the Commission stay any action with respect to non-renewal of its licenses in light of the consistent effort made by the licensee to pay all regulatory fees due.

Very truly yours,

R. Shane Southern
President
